

FFA Horticulture Club

Horticulture club provides the opportunity for students to work with plants by learning to care for and grow plants, harvest the products of plants and the role of plants in agriculture.

Typical Duties

- Students raise and care for the plants in our greenhouse and outside garden area
- Students will meet on Wednesdays from 2:05-3:15
- Some work may include: planting, harvesting, cleaning and maintaining the greenhouse, pulling weeds, designing outside landscaping areas

Expectations

It is expected that all students entering Horticulture Club will:

- Participate on all days (previous scheduled appointments and emergencies are obviously excused)
- Handle all plants and school property with care, while adhering to all rules established in the behavior contract.
- Have respect for each other and the plants and materials used.

How to Sign Up

Any student interested in joining the Horticulture Club should complete the permission slip when it comes out in September. All permission slips AND behavior contracts should be returned to Mrs. Cales in room E-13. Students accepted into the Horticulture Club will be notified by Mrs. Cales.
