

# HMS Student Council

**Summary:** Student Council is student-led organization that focuses on student leadership, school events and activities, and service within the community. In 2019-2020 we won the Superintendents Cup for our accomplishments!

**Key Topics:** Student Council members can be found volunteering at a local nursing home, attending county and state leadership workshops, spear-heading spirit events and school improvements, fundraising to benefit charitable organizations and leadership training.

**Expectations:** As a student council member, you are a representative of the HMS student body. Having good grades and regular attendance is extremely important. Student Council members are leaders in the school community and are therefore held to higher academic and behavioral standards. We meet 2-4 times monthly after school from 2-3pm. Day and overnight field trips are offered throughout the year.
