

Project Serve

Summary: Project Serve is an art-based community service club for students in grades 6-8. Students take part in projects that seek to inspire, uplift, and give aid to people in our local, state, and global community.

Key Topics: Students will take part in the creation of various craft and art projects for others. Due to the various needs that arise from year to year, the projects change and develop over time. Some of the past projects we have completed include:

- Halloween treat bags for children at the Johns Hopkins Children's Center
- Paper flower pencils for teachers
- Recycled t-shirt dog toys for a local animal shelter
- Paper bead bracelets for the women involved in My Sister's Place in Baltimore
- Ceramic candle holders to accompany the Thanksgiving Food Baskets at the local Food Bank

Expectations: Students will meet 1-2 times a month based on the total number of students involved. Students are expected to put forth effort and hard work, and be a positive example.
