

Chamber Orchestra

Summary: Chamber Orchestra is an auditioned group for string players who are leaders in their grade level groups. They meet weekly on Tuesdays from late September until the end of May. This group typically plays music that is more difficult than the grade level groups and has some out of school performances that are beyond the regular December and May concerts.

Key Topics: Perform for County Assessment, visits to Elementary Schools, small group performances at outside venues like Art shows, and for visitors to HMS. Technique above and beyond what the grade level groups are able to address or infused in music and activities.

Expectations: Chamber rehearses every Tuesday that school is in session starting in late September. Students are expected to attend weekly rehearsals unless they are absent from school. Since the music is more difficult than the grade level groups, students are also expected to practice this music in order to be proficient so we can rehearse as an ensemble during our once a week meeting.
